Makayla's Story: It Didn't Have to Happen
Length: 55:45
Five days before Christmas 2011, Dan Sperry's family dynamic changed forever. While waiting for his stepdaughter, Makayla, to arrive home on the activities' bus from dance, he heard a loud thump that sounded like a hood slamming. A few minutes later, one of Makayla's classmates knocked on his door and told him there had been an accident. Makayla had been hit by a vehicle illegally passing the stopped school bus as she ventured home. Dan and his wife found Makayla lying in the ditch and witnessed the life drain from her 11-year-old body. After her death, Makayla's classmates pushed for new Wyoming laws to equip all school buses statewide with stop-arm video cameras. In this webinar, Dan shares his family's journey and how the importance of the right kind of training for bus drivers, students, and parents can help save lives - even if the industry can't stop illegal passing of school buses.

LAWS AND REGULATIONS

Balancing First Amendment Rights When School Staff Go Viral
Length: 54:46
A member of your faculty or staff posts a seemingly innocuous online expression, and all of a sudden you have a PR nightmare on your hands when the community finds out about it. Balancing your school district's efficacy against the First Amendment Rights of faculty and staff in the age of social media can be a daunting task. Should you ask your staff not to post images of them holding wine and beer or posing in what may seem like immoral outfits? These are just two of the many questions school administrators must answer on a daily basis.
